RETIREMENT PLAN ADVISORY COMMITTEE

MEETING MINUTES

May 6, 2021, 9:00 a.m.

Virtual Meeting Held in Accordance with the City of Howell Local Emergency Declaration

Zoom Virtual Meeting

Meeting ID: 399-700-0062 / Password: LCBOC

<https://zoom.us/j/3997000062?pwd=SUdLYVFFcmozWnFxbm0vcHRjWkVIZz09>

Members Present: Cindy Catanach, Nathan Burd, Jennifer Palmbos, Jennifer Slater , and Jeff Warder

Members Absent: Jennifer Nash, Kate Lawrence

1. CALL MEETING TO ORDER

The meeting was called to order by Chairwoman, Cindy Catanach at 9:02 a.m.

2. ROLL CALL

Roll call by the recording secretary indicated the presence of a quorum.

Undersheriff Jeff Warder entered at 9:04 a.m.

3. APPROVAL OF MINUTES

Minutes of meeting dated: February 11, 2021

Motion to approve the minutes as presented.

Moved by: J. Slater

Seconded by: N. Burd

Yes (5): C. Catanach, N. Burd, J. Palmbos, J. Slater , and J. Warder

Absent (2): J. Nash, and K. Lawrence

Motion Carried (5-0-2)

4. APPROVAL OF AGENDA

Motion to approve the Agenda as presented.

Moved by: N. Burd

Seconded by: J. Palmbos

Yes (5): C. Catanach, N. Burd, J. Palmbos, J. Slater , and J. Warder

Absent (2): J. Nash, and K. Lawrence

Motion Carried (5-0-2)

5. CALL TO THE PUBLIC

None.

6. CAPTRUST

Cindy Catanach turned the floor to CAP TRUST.

Dori Drayton reviewed the agenda before starting discussions.

6.1 Investment Policy Statement

CAPTRUST and Committee members reviewed and discussed the IPS.

Motion to recommend the Revised Investment Policy Statement to the Board of Commissioners for approval.

Moved by: J. Palmbos

Seconded by: N. Burd

Yes (5): C. Catanach, N. Burd, J. Palmbos, J. Slater , and J. Warder

Absent (2): J. Nash, and K. Lawrence

Motion Carried (5-0-2)

Dori Drayton confirmed that CAPTRUST will attend the following Livingston County meetings:

- Personnel Committee, May 19, 2021 immediately following the 7:30 a.m. Finance Committee meeting.
- Finance Committee, June 19, 2021 at 7:30 a.m.

6.2 Industry/Fiduciary Update

The committee discussed using employee ID's instead of Social Security numbers to protect participant data.

Cindy will check with MMRMA if Cybersecurity Insurance protects a breach in this data.

Participants can register accounts to protect their own accounts.

Nationwide can share how many members have registered their accounts.

Recommendations include monitoring account by logging in once a month.

6.3 Market Commentary

Dori turned the floor to Anthony Bergstrom, CAPTRUST, to review the market.

6.4 Q1 2021 Investment Report

Anthony reviewed the quarterly report and overall performance with committee members.

6.5 Target Date Review

6.6 Share Class Changes

Anthony answered questions from committee members on the status with Nationwide consolidation.

7. NEW BUSINESS

7.1 Schedule Next Meeting

Cindy Catanach reminded attendees that CAPTRUST will be attending upcoming Committee meetings for the recommendation of the Board's approval of the Revised IPS.

The next meeting will be scheduled at a later date for early August 2021.

8. ADJOURNMENT

Motion to adjourn the meeting at 10:02 a.m.

Moved by: J. Palmbos

Seconded by: J. Slater

Yes (5): C. Catanach, N. Burd, J. Palmbos, J. Slater , and J. Warder

Absent (2): J. Nash, and K. Lawrence

Motion Carried (5-0-2)

Natalie Hunt, Recording Secretary

Livingston County Deferred Compensation Plan

Agenda: August 4, 2021

CAPTRUST

SECTION 1: RETIREMENT INDUSTRY UPDATES	
Industry Updates.....	

DIVERSITY AND INCLUSION IN RETIREMENT: PLAN DESIGN

A huge disparity exists between retirement savings of minorities versus Whites, and women versus men. Women and minorities, on average, have lower earnings and lower job tenure, and are more likely to work part-time or seasonal shifts. In our D&I topical series, CAPTRUST examines the actions plan sponsors can take to create more equitable and inclusive retirement benefits for their participants. We start by focusing on plan design features that benefit minorities and women and encourage savings.

AUTOMATIC PLAN FEATURES

Implement auto-enrollment and auto-escalation features to encourage savings and improve deferral rates.

DID YOU KNOW?

According to a Vanguard study, auto-enrollment is particularly important for low-income Blacks and Hispanics. With voluntary enrollment, these individuals participate in a defined contribution plan at 35% and 36%, respectively. With auto-enrollment, participation jumps to 93% and 94%, respectively.

Auto-escalation is also important in reducing the disparity in savings rates between lower-income minorities versus Whites and Asians. Whites and Asians were more likely to override their plan's default deferral contribution. As a result, deferral rates for Whites and Asians with auto enrollment were about 0.5 to 2 percentage points higher than those for Blacks and Hispanics.

LOANS

Update plan loan provisions to:

- Offer access to loans to encourage plan participation;
- Actively promote the use of loans over hardship withdrawals for emergency needs; and
- Allow terminated employees to continue to repay loans.

ELIGIBILITY

Update eligibility to:

- Allow part-time and seasonal workers to participate in the retirement plan; and
- Allow for immediate eligibility and shorter vesting periods.

These recommendations are from a 2010 ERISA Advisory Council report: *Disparities for Women and Minorities in Retirement Savings*. While dated, the tactics suggested above remain relevant. The ERISA Advisory Council will issue a new report later this year, *Gaps in Retirement Savings Based on Race, Ethnicity, and Gender*, and will formulate specific recommendations that the Department of Labor could follow to reduce these gaps in retirement savings.

FIDUCIARY UPDATE

With the disruption due to the COVID-19 pandemic, action items related to legislative or regulatory guidance may have been overlooked. Below are some items that may require attention.

THE CARES, SECURE, AND MINERS ACTS

Several provisions of the CARES, SECURE, and Miners Acts may require plan sponsor action in 2021:

- 401(k) plan sponsors may need to track hours worked by part-time employees beginning in 2021 to determine eligibility for elective deferrals.
- Plan sponsors may reduce the minimum age for in-service distributions for 457(b) and money purchase plans to 59½.
- Plan sponsors may permit qualified birth or adoption distributions (QBADs), which are penalty-free distributions for birth or adoption expenses, of up to \$5,000 per child.
- Plan sponsors should ensure their recordkeepers are prepared for the resumption of required minimum distributions (RMDs).

PLAN DOCUMENT RESTATEMENTS

2021 is expected to be a busy year for plan document restatements with the Cycle 3 restatement process in full swing.*

- Restatements impact both prototype and volume submitter documents, but this cycle does not apply to 403(b) plans. Restatements are mandatory and occur every six years.
- The current restatement window opened on August 1, 2020, and closes on July 31, 2022. Most recordkeepers, TPAs, and other pre-approved document providers have started restatements. Affected plan sponsors may wish to check with their providers to see when their plans will be ready for review and execution.
- Note: Individually designed plan documents do not have a restatement cycle. However, these plans must incorporate certain required amendments each year.

*Amendments needed to reflect plan provisions offered by the SECURE and CARES Acts will not be included in the Cycle 3 restatements. They will instead be added to those documents as separate amendments.

FIDUCIARY FLASH TRAINING: ENSURING REASONABLE FEES

Fiduciary training provides a way to minimize risk through education and governance and serves as a critical component to managing a retirement plan. In fact, the Department of Labor often looks for evidence of formal training during plan investigations. A good fiduciary curriculum covers a range of topics—from an overview of ERISA to best practices for monitoring investments. In this installment, we cover the duty to ensure reasonable plan fees, one of the core fiduciary duties required by ERISA.

ENSURING REASONABLE PLAN FEES

- A fiduciary is responsible for understanding and evaluating fees associated with the plan's investments and services.
- Having the least expensive plan is not required. However, fiduciaries are responsible for ensuring that the costs associated with the services provided are reasonable.

Investment Fees

- Investment fees should be reviewed on a regular basis. These comparisons should be made with peers in the same investment category.
- It is important to review and understand an investment option's various share classes, net investment cost, and the impact of the share class utilized. Know whether revenue sharing with certain share classes is used to offset plan costs or allocated back to participants.

Service Providers

- Administration and recordkeeping fees should be reviewed periodically to ensure that the costs are reasonable for the services provided.
- A common approach is to perform a fee benchmark against similar sized plans and comparable services in the market every one to three years and to conduct a more formal comparison, such as a request for proposal (RFP) or request for information (RFI), every five to ten years.
- Additional service providers, such as auditors, investment advisors, and consultants, should also be monitored and benchmarked on a periodic basis.
- Creating a consistent process to review and document all plan fees on an ongoing basis is an important step in fulfilling this fiduciary responsibility.

FIDUCIARY DUTIES UNDER ERISA

- Duty of prudence
- Duty of loyalty
- Duty to diversify
- Duty to monitor and supervise
- **Duty to ensure reasonable fees**
- Duty to avoid prohibited transactions

ENSURING REASONABLE FEES

- Analyze and document total plan costs
- Understand the use and impact of revenue sharing arrangements on plan costs
- Compare plan costs to the market periodically
- Retain copies of all contracts and service agreements

SECTION 2: MARKET COMMENTARY AND REVIEW

Market Commentary.....

Market Review.....

Asset Class Returns.....

Index Performance.....

STRONG QUARTER AND FIRST HALF

All major asset classes posted gains last quarter, buoyed by fiscal and monetary policy support and optimism about economic reopening. Stocks and commodities performed particularly well, while bonds regained some ground amid declining rates. Meanwhile, investors watch for signs that inflation pressures are either temporary or more persistent.

- U.S. stocks added to gains in the second quarter. Both large- and small-cap stocks have notched double-digit returns for the year so far, as consumer spending and corporate earnings remain strong.
- While they are lagging their U.S. counterparts, international developed and emerging market stocks are also in positive territory for the year, despite the headwind of slower growth in China.
- Bonds are in negative territory for the year but posted a small gain in the second quarter as interest rates eased a bit. The yield on the benchmark 10-year U.S. Treasury slipped from 1.74% to 1.45% this quarter.
- Commodities were the standout performer for the second quarter (and the year to date) as oil prices reached their highest level since 2018. Other commodities, including lumber and precious metals, also surged during the quarter.

Asset class returns are represented by the following indexes: S&P 500 Index (U.S. large-cap stocks), MSCI EAFE Index (international developed stocks), MSCI Emerging Markets Index (emerging market stocks), Bloomberg Barclays U.S. Aggregate Bond Index (U.S. bonds), and Bloomberg Commodity Index (commodities).

DIGGING DEEPER: STOCKS AND BONDS

Equities

	Q2 2021	YTD 2021	Last 12 Months
U.S. Stocks	8.5%	15.2%	40.8%
• Q2 Best Sector: Real Estate	13.1%	23.3%	31.9%
• Q2 Worst Sector: Utilities	-0.4%	2.5%	15.9%
International Stocks	5.4%	9.2%	32.9%
Emerging Market Stocks	5.1%	7.6%	41.4%

Fixed Income

	06.30.21	03.31.21	06.30.20
1-Year U.S. Treasury Yield	0.07%	0.07%	0.16%
10-Year U.S. Treasury Yield	1.45%	1.74%	0.66%
	QTD 2021	YTD 2021	Last 12 Months
10-Year U.S. Treasury Total Return	3.06%	-4.17%	-5.94%

Equities – Relative Performance by Market Capitalization and Style

Q2 2021				YTD 2021				Last 12 Months			
	Value	Blend	Growth		Value	Blend	Growth		Value	Blend	Growth
Large	5.2%	8.5%	11.9%	Large	17.0%	15.2%	13.0%	Large	43.7%	40.8%	42.5%
Mid	5.7%	7.5%	11.1%	Mid	19.5%	16.2%	10.4%	Mid	53.1%	49.8%	43.8%
Small	4.6%	4.3%	3.9%	Small	26.7%	17.5%	9.0%	Small	73.3%	62.0%	51.4%

Sources: Bloomberg, U.S. Treasury. Asset class returns are represented by the following indexes: S&P 500 Index (U.S. stocks), MSCI EAFE Index (international stocks), and MSCI Emerging Markets Index (emerging market stocks). Relative performance by market capitalization and style is based upon the Russell US Style Indexes except for large-cap blend, which is based upon the S&P 500 Index.

DIGGING DEEPER: U.S. EQUITY MARKETS

The S&P 500 Index is a market-capitalization-weighted index of U.S. large-cap stocks across a diverse set of industry sectors. The stocks represented in these 11 sectors generated a wide range of returns for the last 12 months and most recent quarter.

Returns by S&P 500 Sector

Source: Bloomberg. All calculations are cumulative total return, not annualized, including dividends for the stated period. Past performance is not indicative of future returns.

DIGGING DEEPER: FIXED INCOME MARKET

Interest Rates	3 Months	2 Years	5 Years	10 Years	30 Years	Mortgage Rate
March 2021	0.03%	0.16%	0.92%	1.74%	2.41%	3.27%
June 2021	0.05%	0.25%	0.87%	1.45%	2.06%	3.13%
Change	0.02%	0.09%	-0.05%	-0.29%	-0.35%	-0.14%

U.S. Treasury rates fell at the longer end of the yield curve. Mortgage rates remain at near record-low levels, serving as a tailwind for the U.S. housing market.

Bloomberg Barclays U.S. Aggregate Bond Index	Yield to Worst	Duration	Total Return Q2 2021	Spread	Treasury Rate	AA Spread	BBB Spread
March 2021	1.61%	6.4	1.83%	0.31%	1.30%	0.51%	1.14%
June 2021	1.50%	6.58		0.32%	1.18%	0.45%	1.03%
Change	-0.11%	0.18		0.01%	-0.12%	-0.05%	-0.11%

Declining long interest rates drove positive second quarter performance following a difficult start to the year. Credit had a negligible impact on performance this quarter as spreads remain nearly unchanged.

Bloomberg Barclays U.S. Long Credit Index	Yield to Worst	Duration	Total Return Q2 2021	Spread	Treasury Rate	AA Spread	BBB Spread
March 2021	3.45%	14.90	6.45%	1.26%	2.20%	0.86%	1.53%
June 2021	3.08%	15.18		1.18%	1.90%	0.80%	1.45%
Change	-0.37%	0.28		-0.07%	-0.30%	-0.06%	-0.08%

A decline in longer-term Treasury rates drove performance for long bonds in the second quarter. A modest narrowing of credit spreads contributed positively to performance as well.

Sources: Bloomberg, U.S. Treasury, CAPTRUST Research

ECONOMIC OUTLOOK

The economic recovery is full steam ahead, but growing concerns around inflation and labor market challenges are tempering the good news. Below are the headwinds and tailwinds we see as we enter the next phase of the post-pandemic recovery.

HEADWINDS

Inflation Signals Flashing

- The much-anticipated inflation readings for May revealed a 5% year-over-year increase in price levels, the sharpest increase since 2008.
- This reignited concerns of the risks of economy-crippling 1970s-style inflation, while others view the numbers merely as evidence of economic healing.

Help Wanted

- In May, the number of job openings reached an all-time high of 9.3 million as the labor force participation rate shrank. The scarcity of qualified workers has affected all sectors, creating wage pressures as businesses compete to fill empty slots.

Uncertain Policy Outlook

- As support programs wind down, the baton will pass from the public to the private sector to sustain the recovery. A proposed infrastructure investment package could provide a further economic boost but also risks higher tax rates.
- In June, the Fed took its first steps toward a slightly less dovish stance through a willingness to begin talking about tapering its ultra-accommodative policies.

TAILWINDS

The Reopening Surge

- The combination of broadening vaccine distribution, relaxed restrictions, consumers and businesses ready to spend and invest, and supportive policy has shifted the economic recovery into high gear.
- U.S. gross domestic product (GDP) increased at a whopping 6.4% annualized rate in the first quarter of 2021, and leading indicators point to an even stronger second quarter.

Consumer and Business Spending Power

- Soaring home and financial asset prices, lower borrowing costs, and government support have pushed household wealth to record highs.
- Businesses' capital expenditures could surge to their highest levels in nearly 20 years, a strong signal of business optimism that could also drive future productivity gains.

Fiscal and Monetary Support

- The policy backdrop remains growth-oriented, with continued direct stimulus to families and unemployed workers. Extremely supportive monetary policy has also kept borrowing costs low, adding fuel to the economic engine.

A one-of-a-kind recession has created a strong, but atypical recovery. There will be bumps in the road, both for the economy and for markets, as the complex machinery of the global economy returns to full speed.

PASSING THE BATON: PUBLIC TO PRIVATE SECTOR

An important function of fiscal policy is to provide countercyclical support to the economy by maintaining or increasing government spending during times of economic stress. Additional government spending and support programs can provide a short-term boost at a time when consumers and businesses are unable or unwilling to spend.

OBSERVATIONS

- While the U.S. fiscal policy response to the global financial crisis was massive, the response to the COVID-19 pandemic has been even larger, with more than \$6 trillion in stimulus and support for businesses and families so far.
- The chart above illustrates the countercyclical nature of government spending, with the fiscal policy contribution to growth (blue line) rising during periods of weak consumer spending activity (red line).
- With consumer spending approaching normal levels, the economy appears to be firing on all cylinders as fiscal support programs begin to wind down. However, this handoff from the public to the private sector must occur smoothly. The recovery could stall if support is removed too soon; conversely, excess stimulus could lead the economy to overheat.

Sources: *The New York Times*, Federal Reserve Bank of St. Louis, The Brookings Institution, Hutchins Center

INFLATION: WHERE IT IS, WHERE IT ISN'T

Inflation is a normal and important precondition for economic growth, and the Federal Reserve's mandate is to create conditions for positive (but low), predictable, and stable inflation. Although the challenge of the past decade has been too little inflation, the torrid growth conditions of the pandemic recovery, combined with supply chain disruptions, supply/demand imbalances, and labor market tightening, have caused inflation to spike to eye-popping levels within some (but not all) categories.

U.S. Consumer Price Index
May 2021 - Year-over-Year Inflation

OBSERVATIONS

- As the U.S. economy staged a historically quick recovery in the first half of 2021, price levels rose in tandem.
- The most extreme increases were seen in pockets of the economy such as the transportation sector, with major spikes in energy and vehicle prices. Other important categories, such as food and medical care, showed more normal levels of inflation.
- Measures of price increases such as the Consumer Price Index can be distorted by artificially low levels from a year ago, leading some to interpret these spikes as short term (or transitory). However, if significant inflation persists, it could erode households' purchasing power, raise borrowing costs, and reduce business profitability.

Percent change in annual CPI (chain-type) price index.
Source: Federal Reserve Bank of St. Louis.

INFLATION: HOW MUCH IS TRANSITORY?

Although inflation is on everyone's mind, the degree of concern varies widely. Some view inflation as a short-term (or transitory) risk, while others consider it a long-term, secular threat. Below are arguments for each side of the debate. We do not view inflation as a binary outcome and expect to see some inflation of both types as the recovery continues.

TRANSITORY INFLATION	SECULAR INFLATION
<ul style="list-style-type: none"> Pent-up demand will subside as the reopening continues. Supply chain disruptions will moderate as production and distribution logistics normalize. Commodity prices rose quickly as the economy reopened, but some, such as lumber, have begun to reverse course. Productivity gains from the accelerated pace of technology adoption will serve as a disinflationary force. 	<ul style="list-style-type: none"> Powerful demographic forces, such as the shrinking of the U.S. working-age population, could drive wage inflation higher. Record levels of deficit spending and experimental monetary policy could fuel persistent inflation. A trend to reverse supply chain globalization could raise production costs. More restrictive regulation may result in inflationary pressures within certain areas of the economy.

OBSERVATIONS

- Lumber prices may be the best example of pandemic inflation pressures. Higher lumber prices added as much as \$34,000 to new home prices in 2020.
- The combination of reduced supply from shuttered mills and higher demand for construction and renovation contributed to a spike in lumber prices in early 2021.
- By the end of 2020, wood products production returned to pre-pandemic levels, causing prices to tumble by 40%.

Source: Bloomberg.

HELP WANTED: WHEN WILL WORKERS RETURN?

Restoring a balanced and well-functioning labor market may be the trickiest ingredient for a sustainable, long-term economic recovery. Because recovering the jobs lost during the pandemic is a necessary step in returning the economy to its full potential, it is being closely watched by the Federal Reserve as it considers the pace of policy tightening.

OBSERVATIONS

- With “help wanted” signs cropping up across the nation, desperate businesses are using higher wages, signing or retention bonuses, and free meals to lure skilled workers back.
- U.S. job openings surpassed 9 million in April, far exceeding the number of pre-pandemic open positions. However, labor force participation remains stubbornly low, leading many to wonder why.
- Some theories include:
 - The continuing influence of generous Pandemic Unemployment Assistance (PUA) benefits from the CARES Act;
 - Early retirements enabled by swelling 401(k) balances;
 - Workers reassessing their long-term career goals and developing alternative skills after a long absence from the workplace; and
 - Lingering virus concerns, childcare issues, and school closings.

The CAPTRUST Investment Policy Monitor ("Scorecard") is an illustration of our monitoring system and is designed to assist our clients in their efforts to provide fiduciary oversight to investment assets. It is not intended as a solicitation to buy any security. The scoring system measures quantitative areas as well as qualitative (or subjective) fields for actively managed investment options. Quantitative scoring areas include Risk Adjusted Performance (3 & 5 yr.); Performance vs. Relevant Peer Group; Style Attribution; and Confidence. Qualitative Scoring Areas measure the quality of the Management Team while also considering the stewardship of the investment option's parent company under Investment Family Items. Qualitative areas of analysis are subjective in nature. CAPTRUST typically requires at least 3 months of monitoring before including an investment in this report. Investments that have been added to our system less than 3 months prior to a report being generated may have a Fund Management assessment of '25' as a default, but will be updated, if necessary, after the first quarter of monitoring to more accurately reflect our system. Investments that are not mutual funds or have less than 3 years of performance history may not be scored. This material is for institutional investor use only and is not intended to be shared with individual investors.

The CAPTRUST Financial Advisors Investment Scorecard is an illustration of our monitoring system and is designed to assist our clients in their efforts to provide fiduciary oversight to investment assets. It is not intended as a solicitation to buy any security. The scoring system measures quantitative areas as well as qualitative (or subjective) fields. Quantitative scoring areas for target date funds include Risk Adjusted Performance (3 & 5 yr.); Performance vs. Relevant Peer Group; and Glidepath. Qualitative Scoring Areas for target date funds measure the quality of the Management Team while also considering the stewardship of the investment option's parent company under Investment Family Items. Qualitative areas of analysis are subjective in nature. Qualitative Scoring for Target Date funds also includes a score for Portfolio Construction and Underlying Investment vehicles to express CAPTRUST's views on the manager or strategy. CAPTRUST typically requires at least 3 months of monitoring before including an investment in this report. Investments that have been added to our system less than 3 months prior to a report being generated may have a Fund Management assessment of '25' as a default, but will be updated, if necessary, after the first quarter of monitoring to more accurately reflect our system. Investments that are not mutual funds or have less than 3 years of performance history may not be scored. Capital Preservation options are evaluated using a comprehensive scoring methodology proprietary to the Investment Consultant. This methodology incorporates both qualitative and quantitative metrics, depending on the type of capital preservation option being evaluated, and may include quantitative criteria such as: Crediting Rate/Yield, Market to Book Ratio, Average Crediting Quality, Insurer Quality/Diversification, Duration, and Sector Allocations, and/or qualitative criteria such as quality and experience of the Management Team and stewardship of the investment option's parent company. Passively Managed options are evaluated using a comprehensive scoring methodology proprietary to the Investment Consultant. This methodology incorporates both qualitative and quantitative metrics and may include quantitative criteria such as: Tracking Error, Fees, and Performance versus relevant peer group, and/or qualitative criteria such as index replication strategy, securities lending practices, and fair value pricing methodology. Distinct investment options are evaluated using a comprehensive scoring methodology proprietary to the Investment Consultant. This methodology incorporates both qualitative and quantitative metrics. This material is for institutional investor use only and is not intended to be shared with individual investors.

It is not intended as a solicitation to buy any security. The scoring system measures quantitative areas as well as qualitative (or subjective) fields. Quantitative scoring areas for target date funds include Risk Adjusted Performance (3 & 5 yr.); Performance vs. Relevant Peer Group; and Glidepath. Qualitative Scoring Areas for target date funds measure the quality of the Management Team while also considering the stewardship of the investment option's parent company under Investment Family Items. Qualitative areas of analysis are subjective in nature. Qualitative Scoring for Target Date funds also includes a score for Portfolio Construction and Underlying Investment vehicles to express CAPTRUST's views on the manager or strategy. CAPTRUST typically requires at least 3 months of monitoring before including an investment in this report. Investments that have been added to our system less than 3 months prior to a report being generated may have a Fund Management assessment of '25' as a default, but will be updated, if necessary, after the first quarter of monitoring to more accurately reflect our system. Investments that are not mutual funds or have less than 3 years of performance history may not be scored. Capital Preservation options are evaluated using a comprehensive scoring methodology proprietary to the Investment Consultant. This methodology incorporates both qualitative and quantitative metrics, depending on the type of capital preservation option being evaluated, and may include quantitative criteria such as: Crediting Rate/Yield, Market to Book Ratio, Average Crediting Quality, Insurer Quality/Diversification, Duration, and Sector Allocations, and/or qualitative criteria such as quality and experience of the Management Team and stewardship of the investment option's parent company. Passively Managed options are evaluated using a comprehensive scoring methodology proprietary to the Investment Consultant. This methodology incorporates both qualitative and quantitative metrics and may include quantitative criteria such as: Tracking Error, Fees, and Performance versus relevant peer group, and/or qualitative criteria such as index replication strategy, securities lending practices, and fair value pricing methodology. Distinct investment options are evaluated using a comprehensive scoring methodology proprietary to the Investment Consultant. This methodology incorporates both qualitative and quantitative metrics. This material is for institutional investor use only and is not intended to be shared with individual investors.

INVESTMENTS IN DISTINCT ASSET CLASSES

INVESTMENT	Overall	Commentary
PIMCO Income A		This fund currently meets the guidelines set forth by CAPTRUST for distinct investments in the Investment Policy Statement. This assessment is based on both quantitative and qualitative data. Examples of quantitative and qualitative items considered include, but are not limited to, quality of management, excess return, and risk-adjusted performance.

The CAPTRUST Financial Advisors Investment Scorecard is an illustration of our monitoring system and is designed to assist our clients in their efforts to provide fiduciary oversight to investment assets. It is not intended as a solicitation to buy any security. The scoring system measures quantitative areas as well as qualitative (or subjective) fields. Quantitative scoring areas for target date funds include Risk Adjusted Performance (3 & 5 yr.); Performance vs. Relevant Peer Group; and Glidepath. Qualitative Scoring Areas for target date funds measure the quality of the Management Team while also considering the stewardship of the investment option's parent company under Investment Family Items. Qualitative areas of analysis are subjective in nature. Qualitative Scoring for Target Date funds also includes a score for Portfolio Construction and Underlying Investment vehicles to express CAPTRUST's views on the manager or strategy. CAPTRUST typically requires at least 3 months of monitoring before including an investment in this report. Livingston County 457 Deferred Compensation Plan - Nationwide

FUND MANAGEMENT ITEMS	COMMENTARY
American Beacon Small Cap Value	Coleman Hubbard has been promoted to portfolio manager, succeeding the recently retired John Harloe.
John Hancock Disciplined Value	Josh White was reassigned as a portfolio manager to the John Hancock Disciplined Value Fund and will no longer serve as a portfolio manager to the John Hancock Disciplined Value International Fund. Mr. White's responsibilities on the Disciplined Value International team will be absorbed by Chris Hart, who has led the strategy since its 2008 inception, and Josh Jones, a portfolio manager on the team since 2013. There are no other changes to the Disciplined Value team, which continues to be led by Portfolio Manager Mark Donovan. Mr. White has been with Boston Partners his entire 15-year career; he joined in 2006 as an analyst, then was promoted to portfolio manager in 2018.
T. Rowe Price QM U.S. Small-Cap Growth Equity	Following a challenging year in 2020, the strategy is trailing the benchmark and peer group year-to-date. Almost all of the strategy's year-to-date underperformance occurred in January and June, when heavily shorted "meme stocks" rallied sharply. The strategy did not own these lower quality stocks since they do not meet its criteria. From February-May, the strategy performed well vs. the benchmark. 2020 was the first year in the last decade that the strategy significantly lagged the benchmark and peer group. As expected, the strategy outperformed in the Q1'20 sell-off due to its conservative approach. However, it significantly lagged in the sharp rally in Q2/Q3 as its valuation and quality bias was a headwind. Higher valuation, higher growth stocks outperformed during this time. Portfolio manager Sudhir Nanda has managed the strategy since 2006 through multiple market cycles. We do not believe there are any underlying issues with the investment team or process. Instead, the strategy's conservative approach to growth investing has been out of favor. Thus, we believe that clients holding the strategy should continue to do so.
T. Rowe Price Mid Cap Growth	Following a difficult 2020, the strategy's year to date performance stabilized vs. the benchmark and peer group. High growth, high valuation stocks led the market for much of 2020, which was a headwind for the strategy's growth-at-a-reasonable-price (GARP) approach. That dynamic reversed in Q1 2021, as higher growth, higher valuation stocks came under pressure in areas such as software. The strategy significantly outperformed in Q1 as its approach came back into favor. The strategy underperformed in Q2 2021 as growth stocks regained leadership over value/cyclical areas. We do not believe there are any underlying issues with the investment team or process. Instead, the strategy's GARP approach has been out of favor in the market. T. Rowe portfolio manager Brian Berghuis is sticking with his approach and not chasing after higher valuation, higher growth stocks. His investment discipline has been rewarded in past market cycles. Thus, we believe that clients currently holding the strategy should continue to do so.

FUND MANAGEMENT ITEMS	COMMENTARY
Vanguard International Growth	<p>Vanguard has changed the sub-advisor weights for the International Growth fund from 60% in Baillie Gifford and 40% in Schroders to 70% in Baillie Gifford and 30% in Schroders.</p> <p>James Gautrey of Schroders and Lawrence Burns of Baillie Gifford were recently added as co-portfolio managers of the Vanguard International Growth fund.</p>
T Rowe Price Retirement	<p>T. Rowe Price has reduced the expense ratios for its target date funds and CITs. The new fee levels went into effect on July 1, 2021. Depending on share class and vintage, fees for the Retirement funds were reduced by 1-9 bps. Fees for the Retirement I series were reduced by 1-8 bps. Fees for the various Retirement Trust series (which includes Blend and Hybrid) were reduced by 0-10 bps. The fees for the Target series were reduced by 1-10 bps and the fees for the Target I series were reduced by 1-9 bps.</p>

Livingston County 457 Deferred Compensation Plan - Nationwide

FUND FIRM ITEMS	COMMENTARY
T. Rowe Price	<p>Jason Nogueira, portfolio manager of the Global Consumer Fund, has been named director of Research North America responsible for the technology, media/telecom, health care, and consumer sector teams.</p> <p>Dave Eiswert, portfolio manager of the Global Focused Growth Equity strategy, has joined the firm's International Equity Steering Committee. In addition, Sridhar Nishtala, second director of Research for Asia, has also joined the International Equity Steering Committee.</p> <p>Celine Dufetel, CFO, has been named COO of T. Rowe Price Group. She will continue to serve as CFO.</p> <p>Rob Sharps, head of Investments and group CIO, has been named president of T. Rowe Price Group. He will continue to serve as head of Investments and group CIO.</p> <p>Josh Nelson, director of Research North America, has been named associate head of U.S. Equity. He replaces Stephon Jackson, who has been named head of T. Rowe Price Investment Management.</p> <p>T. Rowe Price is splitting its investment research group into two separate and independent groups. Over the next 18 months, finishing in Q2 2022, T. Rowe Price will transition six existing strategies, including portfolio management, research, and trading teams to a new investment advisor it is forming called T. Rowe Price Investment Management. This new group will remain entirely separate from the legacy group T. Rowe Price Associates. As a result of this change, the two groups will operate independently, meaning they will not share investment research, resources, or portfolio management responsibilities.</p> <p>Hugh McGuirk, head of the Municipal Bond team, member of the Fixed Income Steering Committee, and portfolio manager announced his intention to retire on 12/31/2021. Jim Murphy will succeed Hugh as head of the Municipal Bond team on 9/30/2021.</p>
MFS Family of Funds	<p>Effective September 30, 2021, MFS Co-CIO of Equity for the Americas Kevin Beatty will retire. The other members of the MFS Co-CIO leadership team will remain in place. Effective 3/1/2022,</p> <p>Executive Chair Robert Manning will retire from MFS. At that time, CEO Michael Roberge will become executive chair and retain his role as CEO.</p>

FUND FIRM ITEMS	COMMENTARY
FMR Corporation	<p>Head of Personal Investing Kathy Murphy, will retire from Fidelity in 2021. A successor will be named in the coming months.</p> <p>Adam Joffe joined Fidelity as head of Compliance, Risk & Business Operations (CRBO), succeeding Bob Minicus. Mr. Minicus recently moved to Geode Capital Management, a subsidiary of Fidelity, as its new president and CEO.</p>
Capital Group	<p>Rob Lovelace replaced Tim Armour as chairman of Capital Group's management committee. Tim Armour will continue to serve on the committee. Additionally, Philip de Toledo rotated off in preparation for his planned retirement.</p>
PIMCO	<p>Jennifer Durham, Chief Compliance Officer at Pimco has retired from the firm.</p>
TCW Group

This summary is intended for "Institutional (Plan Sponsor) Use Only" and only includes historical performance of the funds currently in the plan's fund lineup as compared to the peer group (universe) maintained/developed by CAPTRUST (using Morningstar open-end mutual fund data), which may include other investment types such as collective investment trusts. Fund and peer group returns are shown net of investment management fees, unless otherwise indicated, but gross of CAPTRUST advisory fees. The plan's overall performance will be reduced by CAPTRUST's advisory fees and other plan level fees not contemplated in this summary. Therefore, each participant's account performance will differ substantially. Past performance is not indicative of future results. Information from sources believed to be reliable, but not warranted by CAPTRUST to be accurate or complete.

Investor Assumptions/Glidepath Methodology

Glidepath Management	• 30 years after retirement (assumed at age 67)
Assumed Investor Savings Rate:	• 15%, including company match
Assumed Investor Income Growth Rate	• This is not a factor in the glidepath design.
Income Replacement	• 55%
Assumed Accumulated Savings at Retirement	• 10X salary at retirement.
Life Expectancy	• Consistent with current mortality tables.
Asset Allocation Flexibility	• Strict targets with narrow ranges.
Other Assumptions	• None

All assumptions for salary, contributions, employer match, and investor balances have been derived from information collected from T. Rowe Price's own participant database from 2006-2009, consisting of 1.2 million records. Assumptions listed above are "base case" assumptions. The glide path was designed based upon proprietary Monte Carlo modeling that helped determine appropriate asset allocations for each stage of saving for retirement and for retirement itself. The objective is to create a glide path that achieves a high success rate of providing lifetime income and remaining purchasing power over a long time horizon in retirement.

Target Asset Allocation Glidepath per Vintage Year

Dedicated Asset Class Granularity/Diversification

Emerging Market Equities	Yes
International/Global Debt	Yes
Inflation-Protected Securities	Yes
High Yield Fixed Income	Yes
Real Estate	No
Commodities	No

The equity exposure within the T. Rowe Price target date strategies is a broadly diversified allocation to a wide range of equity investments including U.S., international and real asset equities. Within the U.S. equity allocation, an allocation of 77% large-cap/ 12% mid-cap/ 11% small-cap is maintained. This allocation replicates the market capitalization breakdown of the broad U.S. equity market. Additionally, all capitalization segments have equal growth and value allocations. The international equity allocation is broken out to 85% developed markets and 15% emerging markets.

The fixed-income allocation is split into two primary categories - core fixed income and inflation-focused fixed income - where each sector contained has been chosen based on its historical performance, characteristics, and correlations with the other components of the strategies.

Material Changes to the Series

2008:

- Added Emerging Markets Bonds & Non-US dollar bonds
- Rationale:
- Broaden FI exposure

2010:

- Added TIPs & Real Asset strategies

Rationale:

- To hedge equity risk and inflation risk

2011:

- Increased Non-US equity allocation from 20% to 30%

Rationale:

- International equity had become a greater % of the Global Market Cap

2017:

- Added hedged nondollar bonds, long duration U.S. treasuries, bank loans, and dynamic global bonds

Rationale:

- To reduce overall portfolio risk, improve risk-return profile, and diversify the fixed income allocation.

2019

- Adding the Emerging Markets Discovery Stock fund and US Large Cap Core, as well as increasing equity allocation at the start of the glidepath from 90% to 98%, and on the back end from 20% to 30%.

Rationale:

- Provide clients with an opportunistic enhanced equity exposure

2020:

- Enhanced glidepath implementation begins Q2 2020 with a gradual transition to occur over a two-year time period.

Rationale:

- Provide clients with sufficient growth to help achieve their long-term retirement goals, while providing a holistic approach to risk management.

*All information provided by the asset manager, as of 12/31/20. Asset allocations shown are static in nature and do not incorporate any tactical views implemented by the manager.

YOUR CAPTRUST SERVICE TEAM MEMBERS

Period Ending 6.30.21 | Q2 21

Livingston County 457 Deferred Compensation Plan - Nationwide

TEAM MEMBERS	RESPONSIBILITIES
Dori Drayton, CPA ,CFP® Senior Vice President Financial Advisor Dori.Drayton@captrust.com	Account Role: Lead Consultant Our Lead Consultants serve as the primary relationship manager for the fiduciaries of corporate retirement plans. They oversee and ensure quality delivery of comprehensive investment advisory services. They are available to assist with any aspect of clients' accounts, or put them in contact with the appropriate resources here at CAPTRUST.
Anthony Bergstrom, CPFA Senior Client Management Consultant Institutional Client Service Anthony.Bergstrom@captrust.com	Account Role: Senior Advisor Our Senior Advisors serve in strategic oversight roles on the CAPTRUST Account Team.
Lisa Mason Client Management Associate II Institutional Client Service Lisa.Mason@captrust.com	Account Role: Client Management Consultant The Client Management Consultants are focused on overall client management from initial conversion of new plans to CAPTRUST throughout their 'life' at CAPTRUST. As the primary contact for day-to-day client service needs, the main goal of the Client Management Consultant is to deliver exceptional proactive client service. On a daily basis, the Client Management Consultants are available to assist employees with questions related to plan enrollment and education, available investment options, and other areas.

ALPHA

Alpha measures a manager's rate of return in excess of that which can be explained by its systematic risk, or Beta. It is a result of regressing a manager's returns against those of a benchmark index. A positive alpha implies that a manager has added value relative to its benchmark on a risk-adjusted basis.

BATTING AVERAGE

Batting Average, an indicator of consistency, measures the percentage of time an active manager outperformed the benchmark.

BETA

Beta measures a manager's sensitivity to systematic, or market risk. Beta is a result of the analysis regressing a manager's returns against those of a benchmark Index. A manager with a Beta of 1 should move perfectly with a benchmark. A Beta of less than 1 implies that a manager's returns are less volatile than the market's (i.e., selected benchmarks). A Beta of greater than 1 implies that a manager exhibits greater volatility than the market (i.e., selected benchmark).

CAPTURE RATIO

Up Market Capture is the average return of a manager relative to a benchmark index using only periods where the benchmark return was positive. Down Market Capture is the average return of a manager relative to a benchmark index using only periods where the benchmark return was negative. An Up Market Capture of greater than 100% and a Down Market Capture of less than 100% is considered desirable.

INFORMATION RATIO

The Information Ratio measures a manager's excess return over the passive index divided by the volatility of that excess return, or Tracking Error. To obtain a higher Information Ratio, which is preferable, a manager must demonstrate the ability to generate returns above its benchmark while avoiding large performance swings relative to that same benchmark.

PERCENTILE RANK

Percentile Rankings are based on a manager's performance relative to all other available funds in its universe. Percentiles range from 1, being the best, to 100 being the worst. A ranking in the 50th percentile or above demonstrates that the manager has performed better on a relative basis than at least 50% of its peers.

RISK-ADJUSTED PERFORMANCE

Risk-adjusted Performance, or RAP, measures the level of return that an investment option would generate given a level of risk equivalent to the benchmark index.

R-SQUARED

R-squared measures the portion of a manager's movements that are explained by movements in a benchmark index. R-squared values range from 0 to 100. An R-squared of 100 means that all movements of a manager are completely explained by movements in the index. This measurement is identified as the coefficient of determination from a regression equation. A high R-squared value supports the validity of the Alpha and Beta measures, and it can be used as a measure of style consistency.

SHARPE RATIO

Sharpe ratio measures a manager's return per unit of risk, or standard deviation. It is the ratio of a manager's excess return above the risk-free rate divided by a manager's standard deviation. A higher Sharpe ratio implies greater manager efficiency.

STANDARD DEVIATION

Standard Deviation is a measure of the extent to which observations in a series vary from the arithmetic mean of the series. This measure of volatility or risk allows the estimation of a range of values for a manager's returns. The wider the range, the more uncertainty, and, therefore, the riskier a manager is assumed to be.

TRACKING ERROR

Tracking Error is the standard deviation of the portfolio's residual (i.e. excess) returns. The lower the tracking error, the closer the portfolio returns have been to its risk index. Aggressively managed portfolios would be expected to have higher tracking errors than portfolios with a more conservative investment style.

TREYNOR RATIO

The Treynor Ratio is a measure of reward per unit of risk. With Treynor, the numerator (i.e. reward) is defined as the annualized excess return of the portfolio versus the risk-free rate. The denominator (i.e. risk) is defined as the portfolio beta. The result is a measure of excess return per unit of portfolio systematic risk. As with Sharpe and Sortino, the Treynor Ratio only has value when it is used as the basis of comparison between portfolios. The higher the Treynor Ratio, the better.

	QUANTITATIVE EVALUATION ITEMS	QUALITATIVE EVALUATION ITEMS
 MARKED FOR REVIEW The following categories of the Investment Policy Monitor appear “Marked For Review” when:	3/5 Year Risk- adjusted Performance The investment option’s 3 or 5 Year Annualized Risk Adjusted Performance falls below the 50th percentile of the peer group.	Fund Management A significant disruption to the investment option’s management team has been discovered.
	3/5 Year Performance vs. Peers The investment option’s 3 or 5 Year Annualized Peer Relative Performance falls below the 50th percentile of the peer group.	Fund Family A significant disruption to the investment option’s parent company has been discovered.
	3/5 Year Style The investment option’s 3 or 5 Year R-Squared measure falls below the absolute threshold set per asset class.	Portfolio Construction The investment option’s combined Portfolio Construction score is 6 or below out of a possible 15 points.
	3/5 Year Confidence The investment option’s 3 or 5 Year Confidence Rating falls below the 50 th percentile of the peer group.	Underlying Investment Vehicles The investment option’s combined Underlying Investment Vehicles score is 6 or below out of a possible 15 points.
	Glidepath Assessment % of Equity Exposure: The combined percentage of an investment option’s equity exposure ranks in the top 20th percentile or bottom 20th percentile of the peer group. Regression to the Benchmark: The investment option’s sensitivity to market risk - as measured by beta relative to a Global Equity Index - is above 0.89.	

CAPTRUST’s Investment Policy Monitoring Methodology

The Investment Policy Monitoring Methodology document describes the systems and procedures CAPTRUST uses to monitor and evaluate the investment vehicles in your plan/account on a quarterly basis.

Our current Investment Policy Monitoring Methodology document can be accessed through the following link:
