If you previously had a Master Agreement with MDOT, please note that a number of federal and state requirements have been updated. The following are the most substantial changes from the previous version:

- *Timely expenditures – May not provide a full 20% state match if extensions are requested*

- *5311 Operating will be capped starting in FY 2022*
- *There are added requirements for milestone reporting*
- *There is an added requirement for final reports to meet ADA compliance*

This Master Agreement must be returned and approved before project authorizations can be issued under any of the programs listed above. **You must also attach a new Certified Signature Resolution for this new Master Agreement.** A sample Certified Signature Resolution is attached for your convenience. The Certified Signature Resolution must match the digital signer(s) that are on file with MDOT. Your authorized signer(s) are Kate Lawrence, Vice Chair or Wesley J. Nakagiri, Chair.

Please have the contract digitally signed with the signer's MDOT-issued DocuSign signature.
