### Technical Standards for County Internet Connections

Michigan State University Extension (MSUE) employs the use of technology to meet the ever-changing needs of our constituents. We strive to utilize standard, enterprise tools when appropriate, but also recognize the need to evolve with the times and utilize innovative tools to reach a broad array of people.

MSUE does support and encourage the use of technologies that others may not, including social media platforms. We view communication with our constituents through Facebook, Twitter, Instagram, YouTube, and other emerging social media to be critical to our work. MSUE staff are required to follow the MSU Acceptable Use Policy (AUP) <https://tech.msu.edu/about/guidelines-policies/aup/>.

We ask that our county partners provide Extension personnel access to a high-speed Internet connection. From that access, the easiest way to create a secure path to necessary applications is to open the full MSU Internet Protocol Range to and from your network, as well as opening social media sites to the addresses used by MSUE staff at your location. MSUE is prepared to support end user needs if there is high-speed internet, networking to clients, and phone system support. MSU will provide firewall functionality and client support. To discuss this possibility please contact your MSUE District Director. To provide the needed services on county equipment review the following MSU-owned ranges:

The MSU-owned ranges are:  
NetRange 35.8.0.0 - 35.9.255.255 CIDR 35.8.0.0/15
