Re: Resolution for EGLE Contract

The attached resolution establishes the renewal of an annual agreement with the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to conduct environmental health services. EGLE provides funding to partially reimburse the county for services covered in the agreement. This resolution establishes the contract for the period October 1, 2022, through September 30, 2023.

Of note, this agreement includes substantially more funding than last year (\$385,618 vs. \$138,063) due largely to an increase for the Non-community Public Water Supply Program (\$236,404). This program has been historically underfunded by the State and we have been able to operate and meet the minimum program requirements based on a very qualified, and dedicated staff person. This has become unsustainable due to the increasingly more burdensome requirements of this program. Now that increased funding has been realized, I plan to submit a future resolution for a reorganization within this program area to increase our dedicated staffing effort.
