

ARPA CIP REQUEST LCJ – 04/11/2023

	Description	Price	Vendor
A	<p>REPLACE all old Analog cameras. Some of these cameras date back to the 1990's. They are very blurry by today's standards. Improvements will help reliability, and visual awareness of jail operations and safety of inmates. Decrease down time as cameras are failing. This part of the quote is for labor of pulling new Ethernet wire, on-site programming and installing all hardware. It also includes installing eleven new cameras to improve weak visual spots.</p> <p>It includes all head-end hardware, wire, misc. supplies, and UPS units. The actual cameras will be provided by Securitas (Formerly, Stanley Security).</p>	\$65,027.50	American Video
B	<p>Cameras and Network Switches for above camera replacement and additions project. PLC and GUI programming for eleven new cameras. Updates to master jail electronic reference books.</p>	\$76,455.00	Securitas Inc.
C	<p>Upgrade all consumer UPS units in all four control centers. Typically we purchase inexpensive low grade UPS units for each location. They fail often and required service calls. This proposal includes (12) new UPS units by EATON – a major industrial brand.</p>	\$16,410.00	American Video
D	<p>Provide and Install five 12U NavePoint equipment racks for MAX security control center to protect equipment from damage from feet – currently 8 computers are laying on ground unprotected. Clean up all control wiring, rewire as needed. Add circulation fan. Label cabinets. Add power extension cords as needed</p>	\$3,800.00	American Video
	Total	\$ 161,692.50	

Note: All equipment to be NDAA compliant.
