Project Title

Emergency Shelter Capital Projects

Project Description *Please attach additional pages with supplemental information if necessary

Livingston Family Center (LFC) is requesting ARPA funds to assist with the cost of replacing the roof at the agency's emergency youth shelter and the abatement of an area of asbestos found in the shelter.

During the pandemic LFC experience a 60% overall decrease in donated funds to the agency's runaway and homeless youth program, The Connection Youth Services (TCYS). Due to the nature of the essential services provided by the program-- emergency shelter, homeless prevention, and mental health intervention to youth and their families, the agency also experienced a significant increase in the amount of funds spent on an inventory of unanticipated supplies (PPE, cleaning products, etc.). TCYS is primarily funded by state and federal grants and the agency depends on the support of the community to fill gaps in program costs. Donations and proceeds from fundraisers are often allocated to capital improvement projects which are not permitted by state and federal grants.

Project Timeline

July 1, 2022-September 30, 2022

Total Amount Of Funding Requested

\$23,560
