Re: Resolution to Authorize Application for the Delivery of Comprehensive Health Services Funding for the Period of October 1, 2023 through September 30, 2024

The attached resolution requests the authority to apply for continued funding from MDHHS to support the delivery of mandated comprehensive health services, as required under the County's revised Grant Policy. The MDHHS provides funding to partially reimburse the county for services covered in the agreement. There have been no significant changes in program requirements, or the amount of funding.

I recommend that you continue to support this funding source for LCHD. Please do not hesitate to contact me should you have any questions.
