Livingston County Human Services Collaborative Body

September 27, 2023

Livingston County Board of Commissioners,

The Livingston HSCB is comprised of 26 appointed community members, representing human service agencies, local businesses, the criminal justice and child welfare systems, public health, and the community at-large. The HSCB was formed in 1989 to coordinate health and human services, identify gaps and needs, develop or coordinate services to fill identified gaps, and evaluate service results in our community.

Due to several terms that have expired, the Livingston County Human Services Collaborative Body (HSCB) is submitting the slate of membership nominees for approval to the Human Service Collaborative Body.

Per the HSCB Bylaws, the Nominating Committee is formed to review nominations for officers and members of the Executive Committee and HSCB general membership. The committee is composed of four volunteer members of the HSCB. The chair of the Nominating Committee is selected by its members. Open seats are posted via Livingston County Google Group, the county website, and a notice is sent electronically to the HSCB email group.

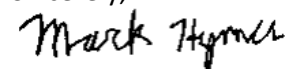

The Nominating Committee submitted recommendations to the HSCB Executive Committee for review and approval. The HSCB Executive Committee voted on September 19, 2023 to approve the membership recommendation which was then approved by the full HSCB on Wednesday, September 27, 2023.

The HSCB asks that you accept and approve this slate of nominees which has been vetted through the internal process outlined in the Bylaws of the Livingston County Human Services Collaborative Body and approved by the current membership.

The HSCB believed the membership nominees will provide valuable partnership and will uphold our mission of: **"Ensuring a system of support for members of our community"**.

As members of the Livingston HSCB, without reservation we confidently endorse the slate of nominees.

Sincerely,

Mark Hymes

Chair, Human Services Collaborative Body
