Description

The purpose of this program is to expand substance use disorder (SUD) treatment and recovery support services in existing drug courts. The program recognizes the need for treatment instead of incarceration for individuals with SUDs. Recipients are expected to provide prevention, harm reduction, treatment, and recovery services for individuals with SUD involved with the courts. With this program, SAMHSA aims to improve abstinence from substance use, housing stability, employment status, social connectedness, health/behavioral/social consequences, and reduce criminal justice involvement.

Eligibility

Eligible applicants are States and Territories, including the District of Columbia, political subdivisions of States, drug courts, Indian tribes, or tribal organizations (as such terms are defined in Section 5304 of Title 25), health facilities, or programs operated by or in accordance with a contract or award with the Indian Health Service, or other public or private nonprofit entities.
