

Memorandum

To: Livingston County Board of Commissioners
From: Sue Bostwick, Equalization Director
Date: May 10, 2024
Re: 2023 Millage

Attached you will find the 2024 Millage Request (L-4029) for Livingston County. All millages on the form have been calculated using the correct millage rollback calculation as prescribed under Article 9 of the Michigan Constitution, and further directed by the State Tax Commission.

To have this to the taxing entities by the first of June, I've prepared the report on the likelihood that at the final meeting the Allocation Board on May 28, 2024, they approve and allocate 5 mills for the county. The request will further be forwarded to the final Board of Commissioners meeting that evening for approval. Should you have any questions or concerns regarding the millage, or how it was calculated, please contact me.
