

LIVINGSTON COUNTY FISCAL SERVICES
APPENDIX B:
SOURCING JUSTIFICATION FORM

Vendor Name:

Street Smarts VR

Amount of Request: **155,000**

SOURCING JUSTIFICATION

Select one of the following reasons and provide a detailed explanation for the choice selected:

- Only one known source can provide the commodity or service.
- Unique source (commodity/service is unique or special in nature), as determined by the County Administrator or designee.
- Compatibility (i.e., a specific piece of equipment to be compatible with an existing equipment system).
- Limited or proprietary systems (i.e., additional licenses, updates, specialized replacement parts, et. al.).
- A professional expert is requested.
- Authorized or required by Federal/State law or by Livingston County ordinance.
- Unusual and compelling urgency (serious injury, financial or other to Livingston County). There is insufficient time for competitive purchase due to an immediate, unexpected need (i.e., to prevent hazard to life, health, safety, welfare, or property or to avoid undue additional cost to the County).

EXPLANATION:

All hardware, support and training included; equipment will be headsets and electronic firearms where others are large equipment which has to be setup in a larger training area or carried on trainee.

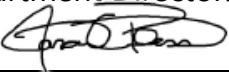

The warranty; support and equipment cannot be matched by any other company

PIGGYBACK CONTRACT

- Purchase will be made from an existing cooperative contract.

Contract Holder/ Contract Number/ Expiration Date:

AUTHORIZED SIGNATURES

Subject: Sole source

Street Smart VR is a leading company in development of virtual reality training systems.

Their product aligns with what LCSO is trying to accomplish with deescalation training.

They will be providing all of the hardware, support and training necessary to implement the system.

Most other companies have large equipment that must be carried on the trainee or setup in the area of the training. The street smart system consists of headsets and electronic firearms which allows for the training to occur in a smaller foot print and with minimal instructors to operate.

Street Smart VR will be providing two systems for deputies to train together as they would operate in the community. No other company can match the equipment, support or warranty that street smart vr can for the awarded price of \$155,000.

Thanks
Chad
