II. MEMORANDUM CONTINGENT UPON FUNDING. This Memorandum of Understanding is contingent upon the appropriations of sufficient State and/or local funds to each of the parties hereto, upon the terms of said appropriations as authorized or amended upon the continuation of such funding.

III. MEMORANDUM AUTHORITY. This Memorandum of Understanding is entered into pursuant to the authority granted to each of the parties hereto under statutes of the State of

Michigan. This Memorandum of Understanding is in accordance with rules, regulations, and standards adopted and promulgated in accordance with the statutes of the State of Michigan. The statutes of the State of Michigan and rules, regulations, and standards (hereinafter referred to as the "Rules") adopted and promulgated in accordance with the statutes shall govern in any area not specifically covered by this Memorandum of Understanding.

IV. TERM AND TERMINATION.

A. The term of this Memorandum of Understanding shall be from the 1st day of October 2025, through the 30th day of September 2026.

B. Nothing in this Memorandum of Understanding shall be construed as requiring any of the parties hereunder to extend or renew this Memorandum of Understanding or to enter into any subsequent agreements.

C. The MDHHS may immediately cancel this Memorandum of Understanding without further liability to the MDHHS or its employees if the LCCMHA or an officer of the LCCMHA is convicted of a criminal offense incident to the application of or performance of a State, public or private contract or subcontract or convicted of a criminal offense including but not limited to any of the following; embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, attempting to influence a public employee to breach the ethical conduct standards of State of Michigan employees; convicted under State or Federal antitrust statutes or convicted of any other criminal offense which, in the sole discretion of the MDHHS, reflects on the LCCMHA's business integrity.

D. Notwithstanding any other provisions in the Memorandum of Understanding to the contrary, any of the parties hereto may terminate this Memorandum of Understanding for any reason by providing the other parties hereto with sixty (60) days prior written notification.

E. Any such termination of this Memorandum of Understanding shall not relieve any of the parties hereto of the obligations incurred prior to the effective date of such termination.

V. FUNDING OBLIGATIONS OF THE PARTIES.

A. The parties hereto shall provide cash match funding or CCF reimbursement, and in the case of MDHHS other non-cash support, as specified below, for the purposes hereunder during the term of this Memorandum of Understanding. For the TWELVE (12) month period commencing on October 1, 2025 and ending on September 30, 2026, cash match funding obligations of the parties shall be as follows:

(1) TWO HUNDRED FORTY EIGHT THOUSAND AND 00/100 DOLLARS (\$248,000) of cash match funding by the Livingston County CCF appropriation for Wraparound Services comprised of a \$208,000 community-based services component designated for Trial Court supervised juveniles/families and a \$40,000 community-based services component designated for MDHHS supervised children/families, which includes:

(a) FORTY THOUSAND DOLLARS (\$40,000) from the Community

Mental Health Partnership of Southeast Michigan

(b) FIVE THOUSAND DOLLARS (\$5,000) from the Health Department

- (2) TWENTY THOUSAND AND 0/100 DOLLARS (\$20,000.00) of cash match funding by the LESA; and,
- (3) Up to NINE HUNDRED FORTY-TWO THOUSAND AND SEVENTY-FOUR AND 00/100 DOLLARS (\$942,074) of funding provided by LCCMHA's Medicaid allocation.
- (4) ONE HUNDRED EIGHT THOUSAND AND 00/100 DOLLARS (\$108,000.00) of funding provided by community reinvestment funds.
- (5) MDHHS demonstrates its financial commitment to this partnership through the CCF annual plan and budget process. MDHHS will reimburse Livingston County for approved CCF expenses in accordance with the County's approved CCF annual plan and budget. Livingston County must submit a reimbursement request to MDHHS in accordance with CCF policies. MDHHS shall have no direct monetary funding obligation with respect to this memorandum of understanding; however, it will be an equal partner in this memorandum of understanding in that it will be supportive to the behavioral health managed care services outlined in this document. This non-financial commitment will be considered of equal merit to the overall collaborative venture.

Total local collaborative funds hereunder for funding the behavioral health managed care services shall be up to ONE MILLION, THREE HUNDRED AND EIGHTEEN THOUSAND AND SEVENTY-FOUR AND 00/100 DOLLARS (\$1,318,074.00) for the term of this Memorandum of Understanding.

In the event that it is found at any time during the term of this Memorandum of Understanding that local collaborative cash match funds are not sufficient for funding of the costs of the behavioral health managed care services required for this local collaborative venture, this Memorandum of Understanding may be amended in order to increase the payment of cash match funding under this section by any of the parties hereto that agrees to such increase of its cash match funding obligation hereunder or to adjust the number of clients enrolled to the level of funding available.

B. Total payments of cash match funds by the Livingston County Trial Courts shall be paid by a one-time lump sum payment within one hundred and twenty (120) days after the commencement of services and contingent upon receipt of invoice and corresponding case list of individuals receiving services.

C. Total funding generated as a result of this Memorandum of Understanding on cash match funding will be directed by the LCCMHA and will be utilized to fund and provide

the behavioral health managed care services. The parties hereto acknowledge and agree that, as required by the MDHHS, all administrative costs of the LCCMHA, in the execution of its duties and responsibilities as the financial fiduciary and managing entity for this local collaborative venture, must be paid specifically from the total funds generated hereunder for the behavioral health managed care services.

D. Total funding generated as a result of this Memorandum of Understanding on cash match funding shall be receipted in and accounted for separately as enterprise funds by the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, for the self-sustaining behavioral health managed care services. Financial reports on revenues received, costs incurred, and expenditures made for the behavioral health managed care services shall be distributed to the other parties hereunder by the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture after the end of each fiscal year quarter. It is agreed by the parties hereto that the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, shall be responsible for compiling and submitting all requisite financial reports to the State of Michigan and/or the Federal government on revenues received, costs incurred, and expenditures made for the behavioral health managed care services.

E. Local collaborative cash match funding is being provided proportionately by the parties hereto based upon projections of a maximum number of pre-approved behavioral health managed care service enrollees per a specific number of service months during the term of this Memorandum of Understanding. If the actual number of pre-approved behavioral health managed care service enrollees and/or the actual number of service months, in whole or in part, during the term of this Memorandum of Understanding is(are) less than projected, the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, shall return a proportionate portion of local collaborative cash match funding to any of the parties hereto when required by the funding source(s) of any of the parties hereto.

F. If total funding generated as a result of this Memorandum of Understanding on cash match funding is more than the costs incurred for the behavioral health managed care services during the term hereunder, the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, shall maintain those revenues in excess of all costs incurred in a separate local fund equity reserve account for the term of this Memorandum of Understanding or any extension thereof and/or during the term of any subsequent Memorandum of Understanding. However, if this Memorandum of Understanding is terminated or not extended or a subsequent Memorandum of Understanding is not entered into by the parties hereto, it is agreed by the parties hereto that the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, shall:

- 1) make appropriate final adjustments, as applicable for incurred costs of this collaborative local venture including accruals, to said restricted local fund equity reserve account; and
- 2) Close out said separate local fund equity reserve account by returning said reserve funds to the parties hereto in separate portions proportionate to the percentage of cumulative funding contributions made by each of the parties

hereunder.

G. It is expressly understood and agreed by all of the parties hereto that none of them and/or none of their subcontractors shall process billings separately for consumer fees (i.e., service payments made directly by consumers, their families, and/or legal guardians) and reimbursements from State ward board and care, Medicaid, Medicare, and/or private insurance carriers, etc. for individual services if such services specifically are covered under the behavioral health managed care services required of this local collaborative venture during the enrollment period. Each of the parties hereto shall include, or incorporate by reference, the above provisions in every applicable subcontract and will provide that said provisions will be binding upon each of its said subcontractors. The LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, shall make periodic inquiries of the other parties hereto to ensure that the requirements of this subsection are being met.

- 1) It is agreed by all of the parties hereto that the current Ability to Pay determination, fee schedule, and payment system established by the LCCMHA in conformance with Federal and State laws and the Rules promulgated thereto shall govern for the enrolled services hereunder and shall be adhered to by all of the parties hereto and children and families who are ineligible for Title XIX Medicaid and who are served by this local collaborative venture.

H. The accounting procedures and internal financial controls of the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, shall conform to generally accepted accounting principles in order that the costs allowed by this Memorandum of Understanding can be readily ascertained and expenditures verified there from. The LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, agrees to maintain separate accounts and source records for all revenues received pursuant to this Memorandum of Understanding. The LCCMHA acknowledges that its accounting and reporting of costs and revenues pertaining to this Memorandum of Understanding must be in compliance with accounting and reporting requirements of the State and Federal governments that pertain to this local collaborative venture.

I. The parties hereto agree that the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, shall maintain on file for ten (10) years or as otherwise required by the State and Federal governments, all appropriate records on all services and service recipients and all financial records pursuant to this Memorandum of Understanding. The LCCMHA shall provide the other parties hereto, the State of Michigan, and the Federal government or their representatives with full access to and the right to audit all said records and documentation during the period that they are required to be on file. If an audit is initiated prior to the expiration of the ten (10) year retention period and extends past that period, all records and documents shall be maintained by the LCCMHA, as the financial fiduciary and managing entity for this local collaborative venture, until the audit is completed.

ATTACHMENT A REFERRAL PROCESS AND ELIGIBILITY CRITERIA

Referral Process

The Wraparound Coordinator is the access point to enrollment in Wraparound. Any agency or consumer may call her/him with a referral. These referrals are presented to the Community Consultation Team (CCT), which is the community gatekeeper for Wraparound. Referrals are matched to the wraparound eligibility criteria requirements and the prioritization list by the CCT, resulting in one of the following recommendations:

1. Acceptance because there is an opening and because the case has higher priority over any other case.
2. Acceptance even though Wraparound is filled. This is done when there is a crisis that needs immediate attention and Wraparound can anticipate an opening in a relatively short period of time.
1. Acceptance and placement on the waiting list because Wraparound is full. The Wraparound Coordinator provides consultation with input from the CCT to the agency/family. The Wraparound Coordinator will keep data regarding these referrals and where they fit on the priority list.
4. Rejection because the referral does not fit eligibility criteria for Wraparound.

In addition:

- a. Wraparound will keep a waiting list which will be organized by priority and then referral date.
- b. If eligibility information changes, the Wraparound Coordinator will consult with the CCT for reexamination of priority level.
- c. Referral data will be kept.
- d. Waiting list data will be kept. If the number of referrals on the waiting list reaches too high a number and/or the length of wait interferes with the treatment needs of children, the information will be presented to the HSCB for planning purposes.

Eligibility Criteria

In order to be eligible for enrollment in this Program and for payment under this Agreement, a person must meet the following criteria:

1. Age 0 to 18.
2. Nominated by a participating agency.
3. Has a Serious Emotional Disturbance, based on criteria published by the Michigan Department of Health and Human Services.
4. Has exhausted traditional services or these services are not appropriate for the person according to the Community Team assessment.
5. Is involved with multiple services systems (and systems must be willing to participate in the process).
6. Referred for or at imminent risk of out-of-home placement, according to Community Team assessment, using one or more of the following criteria: diagnosis, prior placement history, CAFAS (Child and Adolescent functional Assessment Scale) and/or Structured Decision-Making results, court-ordered out-of-home placement with judicial acceptance of alternative treatment plan or disruption of developmental progress/developmental delay.

Priorities for Wraparound are determined by the partners and community need. They are as follows:

1. **Risk of placement or returning from placement:** This includes any child that is in out of home placement and/or that has been identified as needing placement in foster care, residential treatment, psychiatric hospitalization or any other placement option.
2. **Severe functional impairments:** This includes children who are having severe difficulties in several areas of their life and those disturbances result in:
 - A. Sexual acting out
 - B. Eating disturbances
 - C. Sleeping disturbances
 - D. Danger to self or others
 - E. An inability to go out in public places without major disruption
 - F. Severe thought or mood disorders, or
 - G. Property destruction
3. **Risk of multiple suspension/or expulsions:** This includes children who have been suspended more than once in the past school year or they have been referred to the superintendent for possible expulsion. Other considerations may be given to the number or referrals a child receives based on behavior to address the diverse nature of school's suspension policies.
4. **Family dissolution:** This includes children and families that are at risk of dissolving due to health stresses, mental illness, divorce, death in the immediate family, substance abuse, homelessness, a family with multiple children who present severe challenges in parenting situations, a family with potentially more than one wraparound child and other environmental factors.
5. **Abuse and neglect prevention:** These are families identified by LCDHHS or possible other agencies or family members. The families who are included in this priority have high risk factors of abuse or they have a past history of abuse and neglect. Structural barriers facing these families include unemployment, transportation, substance abuse, etc. These families may be high in risk factors but low in immediate safety concerns. For example, if the child needs to be removed as the only alternative to ensure safety then Priority One would be considered instead.
6. **First come/first served:** When there is no waiting list and no other referrals to consider at the above five criteria, a child who meets the general definition of wraparound eligibility may be considered and assigned to wraparound.

Level of Care Protocol

The following protocol will guide the service selection and level of care determination process for children enrolled in wraparound:

1. Level of care decisions will be guided by the following principle: Children should be served in the least restrictive, most normative environment adequate to meet their treatment needs, and the safety needs of the child, family and community.
2. Child and Family Teams will select the appropriate service mix based on the needs, strengths, and desired outcomes identified in their individualized planning process.
3. Crisis and safety plans will be developed in response to all child and community safety issues identified in the individualized planning process. Crisis and safety plans will proactively identify which interventions of higher intensity/restrictiveness will be accessed in response to specific behaviors.
4. The CCT will typically review all resource utilization on a regular basis. This review will include an analysis of the rationale for services selected, analysis of continuing need for the current level of service based on specific behaviors and/or circumstances, and review of progress toward identified outcomes.
5. The CCT will monitor for both the under and over-utilization of resources.
